

DANIELSON AND PUTNAM NEWS

DANIELSON

Had a hundred guests and employees of the Attawapung hotel were driven out, just after 6 o'clock Thursday morning, by a fire that started in a heap of straw in a cage under a stairway in the basement of the hotel.

Within five minutes of the discovery of the fire the entire hotel, even to the fourth floor, was filled with a dense, black smoke that, guests say, the glow of electric lights in the hallways was obscured and it was necessary to grope along to the stairways.

No one was injured in the fire, which was quickly extinguished by the fire department, the loss will be well under \$250, covered by insurance.

C. A. Hamilton, an employee of the hotel, also certain of the Captain Putnam's company, discovered the fire when he descended to the basement to discharge some detail of his morning duties.

Thompson's familiar with the hotel and a good fireman as well as Hamilton, connected by a length of garden hose, that happened to be in the basement, with a nearby faucet and without a doubt would have been able to extinguish the fire unaided, but water failed to flow through the hose on account of some obstruction, so he was forced to pull in an alarm, which was sounded from Box 23, at 6:15.

In the meantime cries of fire had aroused such guests as were not engaged with early breakfasts or about the lobby or in their rooms. These piled hurriedly out through the smoke-filled halls and stairways and made their way to the street door.

Two employees of the hotel—Miss Abby Croft and Miss Katherine O'Brien, who had not left their rooms in the second story of the annex at the rear of the building, in which the fire was then raging, were taken down a ladder to the ground. Fireman John Gordon assisting them in making the descent.

Working under the direction of Chief A. B. Woodworth, the firemen made short work of the fire, which threatened the extreme of danger to the big frame structure and those within, as well as to other frame business blocks in the immediate vicinity.

The flames fairly roared up a back stairway into the kitchen and upwards into that part of the rear of the house reserved as sleeping quarters for employees. Smoke was pouring out of every window on each of the four floors of the house when the water was turned on and to rainmakers it seemed as though the hotel was doomed.

That night, with such a fire, however, and the firemen had a much better chance of making a successful fight than seemed possible to the big crowd that gathered to watch.

The firemen worked so effectively and carefully that the damage is surprisingly slight. William S. Brown, owner and operator of the hotel, expressed his sincere appreciation of the good work of the department.

Any fire in any of the buildings in the vicinity of where the Attawapung house is located always startles firemen and citizens generally because of the possibilities of such a fire getting out of control and sweeping down half the business in that section. This is a special reason why the splendid work of the firemen is so generally appreciated.

Guests amused themselves after the fire in recounting tales of their harried flight.

HEAVY MEAT EATERS HAVE SLOW KIDNEYS
Eat less meat if you feel backache or have bladder trouble—Take glass of Salts.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked, from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headache, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a peculiar itching, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will be flush. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it is no longer caustic to the bladder, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

APPLY SULPHUR TO HEAL UP YOUR SKIN
Broken Out Skin and Itching Eczema Helped Over Night.

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment. The moment you apply it itching begins. Only those who have had unsightly skin troubles can know the delight this Month-Sulphur brings. Even ring, itching eczema is dried right.

Get a small jar from any good drugist and use it like cold cream.

PUTNAM
Black Pond camp, in the town of Woodstock, is going to be occupied throughout the camp season this coming summer by as many as 120 boys at a time. Each of these groups will remain for a two weeks period.

Next Tuesday brings the annual bazaar, which is one of the most important events of the year. The bazaar is held at the Putnam school, and is a great success every year.

The building plans this year call for the construction of only a wharf and raft. The house on the place has been a machine, and will be used as headquarters and another smaller building is available for use as a cook shack.

A Hartford concern has given a Ford for use at the camp and the machine will fill an important place in use for running after supplies and other similar service.

Next year's plans for the camp call for the construction of a dining hall. This building will have a capacity for seating as many as 200 boys at tables and will have a fireplace and other such appointments as are found in camps of the kind to be established at Black Pond.

Floors are to be built for the squad tents that are to be used at the camp for living quarters during the coming season.

Black Pond provides a fine location for the camp. There will be opportunity for boating, fishing and bathing under careful supervision of those who are to be in charge. The opening of the camp is eagerly awaited by the boys who are going to spend part of their vacations there.

A series of notices pertaining to precautions against contracting scarlet fever and what it is intended by school authorities shall be done for the enforcement of these precautions has been issued.

The Putnam board of health advises that all public and parochial school children having a running nose, sore or inflamed throat, discharging, swollen neck glands or a fever must not be sent to school, and must be kept at home on the premises by parents or guardians.

Rev. Charles F. Bedard, pastor of St. Mary's church, has issued a circular school with upwards of 800 pupils, and Superintendent Ernest C. Witham of Putnam's schools have issued duplicate notices in which they state that the foregoing suggestions of the board of health will be strictly enforced, and that parents must notify the school of the cause of absence of pupils.

dressing and efforts to get to safety. Many were traveling men and they were quick to admit that while their experience seemed amusing after the fire, it was anything but that when they were in great doubt as to their ability to make their way to safety.

Danielson will get a new footbridge over the Attawapung river, near the state armory, as one benefit of action taken at the adjourned annual town meeting.

The bridge is to be built at a cost of \$2,500, to which sum the appropriation therefor in limited. Engineers' estimates, obtained months ago, indicate that a new footbridge can be built within the sum named.

The meeting was not inclined to show any very great interest in the bridge proposition until First Selectman John A. Gilbert explained that the structure has become so dilapidated as to be actually dangerous for use and that the selectmen felt that delay in dealing with the bridge matter would be hazardous.

Following Mr. Gilbert's statement the motion for the appropriation was passed without a dissenting voice.

The matter of building long stretches of sidewalks in the borough, a subject much discussed for nearly a year, will not be taken up by the town.

Attorney E. L. Darbie, in reporting for a special committee appointed at the annual town meeting, pointed out that all of the proposed sidewalks would be done within the limits of the borough of Danielson, whereas such of the expense of construction as would not be borne by abutting property owners would be assessed against the town.

The members of the committee were agreed that it would be unfair to assess any part of sidewalk costs against taxpayers of the town not resident within the borough.

Mr. Darbie said, and he recommended that the matter be tabled, suggesting that action might be taken at the annual borough meeting next month to have the borough's charter so amended as to give the borough, instead of the town, control over the sidewalks, and the borough then will be in a position to go ahead with its improvement ideas along this line.

Alma Fowler, of Goodyear, injected some spice into what was an unusually calm and unperturbed town meeting when she rose to inquire about a \$1400 item in the budget to reimburse the town tax collector, George A. Williams, of Dayville.

Mr. Fowler insisted that \$1,400 is altogether too much money for the job, which he says, should provide no more than three months work each year, and he called attention to the fact that the appropriation for the entire board of selectmen, exclusive of transportation, is only \$1,500.

Mr. Fowler moved that the tax collector's salary be reduced to \$1,000. Attorney Darbie raised the point of order that such a matter could not rightfully be considered by the meeting, as the salary therefor contained in the town charter.

He also cited the method by which the tax collector's compensation has been fixed by vote of a town meeting. Attorney Darbie's motion was ruled out of order.

At this Mr. Fowler remarked that there seemed to be little liberty left. The salary question, it is pointed out, will come up again at the annual town meeting next fall, when another effort will be made to have the compensation reduced. This is the promise in March, at any rate.

The adjourned annual town meeting of Killingly held a tax of 18 mills, Wednesday evening, in the town hall. This was a reduction in the rate from 20 to 18 mills of a year.

The meeting was held in the town hall, and was attended by a large number of citizens. The meeting was held in the town hall, and was attended by a large number of citizens.

MARKOW'S 263 Main Street

The body was placed in the receiving vault at Holy Cross cemetery. Louis B. Kennedy was the funeral director.

A young colored man who claimed Alabama as his home, was released from the police station Thursday morning after being given a night's lodging. He had been found asleep in a lobby of a building in the business section late Wednesday night.

He represented himself as being out of work and trying to make his way back to where "Mammy" waits for him.

Dr. J. N. Perreault was in Boston on Thursday to attend the motor car show. Honore Marotte was in Boston on Thursday on a business trip.

In sections hereabouts sugar manias have been tapped by persons who are familiar with the sugar and syrup-making industries.

Killingly High school pupils are enjoying what is described as the Easter-time vacation.

The second Monday in April has been set as the time for collecting the town taxes fixed at the meeting on Wednesday evening.

Heavy snow squalls during Thursday afternoon gave evidence that winter, even in its very last days, retains some kick and ability to make difficulties.

Regardless of his official position, a Connecticut company chief engineer who was a guest at the Attawapung house selected his transit when the fire broke out Thursday morning and made his way out with it.

Mr. and Mrs. Hiram Burton have been at Boston to attend the automobile show.

P. P. Cunniff has been elected a vice president of the Putnam Country club, which he has been a member for a number of years.

Next Tuesday brings the annual bazaar, which is one of the most important events of the year. The bazaar is held at the Putnam school, and is a great success every year.

The building plans this year call for the construction of only a wharf and raft. The house on the place has been a machine, and will be used as headquarters and another smaller building is available for use as a cook shack.

A Hartford concern has given a Ford for use at the camp and the machine will fill an important place in use for running after supplies and other similar service.

Next year's plans for the camp call for the construction of a dining hall. This building will have a capacity for seating as many as 200 boys at tables and will have a fireplace and other such appointments as are found in camps of the kind to be established at Black Pond.

Black Pond provides a fine location for the camp. There will be opportunity for boating, fishing and bathing under careful supervision of those who are to be in charge. The opening of the camp is eagerly awaited by the boys who are going to spend part of their vacations there.

A series of notices pertaining to precautions against contracting scarlet fever and what it is intended by school authorities shall be done for the enforcement of these precautions has been issued.

The Putnam board of health advises that all public and parochial school children having a running nose, sore or inflamed throat, discharging, swollen neck glands or a fever must not be sent to school, and must be kept at home on the premises by parents or guardians.

Rev. Charles F. Bedard, pastor of St. Mary's church, has issued a circular school with upwards of 800 pupils, and Superintendent Ernest C. Witham of Putnam's schools have issued duplicate notices in which they state that the foregoing suggestions of the board of health will be strictly enforced, and that parents must notify the school of the cause of absence of pupils.

Putnam High school reopened Thursday morning after undergoing a cleaning carried out as a precaution against the possibility of cases of scarlet fever developing among those who study in the building.

A conference between Dr. Osborne of the state board of health, members of the Putnam board of health, members of the town school committee, and the superintendent of schools was followed by the issuing of the notices herein quoted and the reopening of the high school.

Collectors of funds to go to striking textile workers, who are out in Rhode Island and New Hampshire cities have made their appearance in Putnam. It was stated by the police Thursday. These strikers, it is promised, are to canvass workers in every town and city in New England, especially in textile centers.

Attention was called Thursday to the need of carefully checking up the credentials of all persons who may come into this territory collecting funds. Workers are very certain to give in large numbers and generously to this cause, a fact of which unscrupulous persons are well aware, and take collectors, with no authority from the organizations of the striking textile workers, are expected to follow in the wake of the real collectors and, in some cases, to come ahead of them.

All of the many who will give are being urged to make certain that their money is going into proper hands and that it will be devoted to the cause for which it is intended.

CENTRAL NEWS PHOTO SERVICE, NEW YORK.

HANOVER
Special Lenten services are being held at the Congregational church on Thursday evenings. The subject of the course is Some Fundamentals and the first one was given last Thursday evening. The topic used was God, the World and Us. The women of the church have been invited to a special missionary meeting at Park Church, Norwich, this (Friday) afternoon at 3 o'clock.

Ralph D. Standish has been at his home here for two weeks. Saturday he will sail for England to complete his training at the London office of the International bank.

There
